

2016

Celebrating Excellence and Success Across the Legal Industry

Finance Monthly Law Awards 2016

Returning for another year, the Finance Monthly Law Awards bring together law firms and legal professionals from all over the world under one publication to celebrate their successes.

The annual awards honour both firms and individuals for innovation in their specific yet wide-ranging legal fields. The honorees drive the industry by coupling client focus with unparalleled knowledge. Their work is done on a global scale. With a readership that spans every continent, Finance Monthly offers an international showcase for international work. Winners this year are from every corner of the globe, including Eversheds LLP in Finland, Cruz Marcelo & Tenefrancia in the Philippines, Grispo & Asociados in Argentina, and Mick Law P.C. in the US.

Finance Monthly's lengthy research process involved many months of company feedback and professional consultation. As a result the Awards compile a selection of winners who are both sought after by the public and respected by their colleagues. A full range of international, boutique, niche, and full service firms are recognised. Together they provide a glimpse into the amount of variety and professional excellence within the industry.

We hope you enjoy reading this year's Finance Monthly Law Awards.
